Name of the Club/Student Chapter/Society:

Brushes To Pixels

About Us:

BrushestoPixels, led by Nandini Khandelwal and co-headed by Maimuna Khatoon, with mentorship from Prof Shruti Maheshwari, is a vibrant fine arts club at our college, fostering creativity and connections within the community, through art, imagination and innovation.

Highlights of the Club:

Our journey is marked by remarkable achievements, none more so than our collaboration with SymbiTech, where we transformed spaces into captivating narratives centered around Sustainable Development Goals (SDGs). Through meticulously crafted installations and visuals, we ignited conversations on global issues and sustainability, leaving an indelible mark on our campus community. Driven by a commitment to promoting sustainability and responsible development, we go beyond conventional artistry. Our workshops, such as the serene haven of "Artful Serenity," provide not just an escape, but a sanctuary for self-expression and camaraderie among fellow artists. With an open theme and ample supplies, we encourage uninhibited creativity, fostering a diverse array of unique artworks and meaningful connections.

Social media links:

At the heart of our endeavours lies our active Instagram presence, where the vibrant tapestry of Brushes to Pixels unfolds. Here, we showcase not just our artworks, but the essence of our club—creativity, community, and socially conscious design. It's a space where students can engage, participate, and connect with fellow artists, transcending physical boundaries and enriching our college culture.
