Any other suggestions: I am a proud alumnus of my institute. The teachers have been very co-operative with us which helped us to be where we are. We are delivering the best, thus the reciprocation from the students need to be at par. To summarize some points would be –

- Have more focus on research and open source contributions along with some industry recognized certifications.
- Have industries conduct hackathons
- Have sessions on aptitude and algorithms tests
- Have sessions on emerging technologies and their use cases in the industry
