About Civil'ive

WRITTEN BY ASHWANI KUMAR

CIVIL'IVE is the e-Newsletter of Department of Civil Engineering, Symbiosis Institute of Technology, Pune. This is a communication method suited to the needs and concerns of the time, which will carry information concerned to the important events, happenings, and achievements of the department. This will further create a sense of belongingness amongst the faculty team and students. This e-Newsletter is also intended to provide a stage to showcase the talent of the faculty team and students of the department.

Dr. Sayali Sandbhor/ Prof. Sagar Kolekar – Editorial Secretary

Ashwani Kumar- Chief Editor

Ashish Ranjan- Co-editor

Muskaan Kushwaha- Co-editor

Vision of the Department

To contribute to society by imparting quality education, professionalism, and entrepreneurial skills in the field of Civil Engineering to produce globally competent engineers.

Mission- Department of Civil Engineering

To impart the latest state of art research-led technical education and skills in a congenial learning environment to meet global societal needs.

To inculcate professional ethics and lifelong learning through curricular and co-curricular activities.

To nurture innovation and encourage entrepreneurship in Civil Engineering.

Program Educational Objectives (PEOs)

PEO1 – To apply fundamental skills, knowledge of analysis and design to all the applications in civil engineering.

PEO2 – To contribute towards the development of society by providing solutions with sensitivity towards the built environment.

PEO3 –To demonstrate professional and leadership ability for becoming successful entrepreneurs

Mother's Day 2020

WRITTEN BY ASHWANI KUMAR (MAY 10, 2020)

A very Happy Mother's day to all the students of SIT. For those who are spending time with their mother, please consider yourself fortunate as there are students who are miles away from their mother and hence, we, the students of Civil engineering department have brought some messages from all those who are not there with their mother due to this uncertain situation.

Life till Death a Mother will never remember your mistakes as regret.
She of all 7.6 Billion people in this Earth knows your true Worth.

मैने सोचा, इंटरनेट की भी मदद ली, विभिन्न प्रकार के स्तोत्र मे भी देखा, लेकिन दिल से केवल एक ही आवाज़ निकली, "मा तुम सबसे प्यारी हो ।"

There's so much to you,
That words couldn't amount to anything.
It's cliché but true,
If I could be half of a person as you.
Unlike these words,
I hope I do justice to your upbringing.
To me, I thank you for nurturing.

रुके तो चांद जैसे है,
चले तो हवाओं जैसे है,
वो मा ही है
जो धुप में भी चले तो छाओ जैसे है !

For those who are away from their mom, this year might be difficult to see your mom in person, but you should take time to let her know she's in your thoughts.

Mothers day celebration

Message from the team was sent to mothers and all . This was made by collaborations from students .

WEBINAR ON ROAD SAFETY

PART OF ROAD SAFETY EVENT- Q & A WITH INSPECTOR PRABHAKAR DHANGE

The team participated in the road safety event by i-Safe, IIT Delhi. Many activities such as poster making, webinar and spreading awareness were successfully completed. We secured in Top 50 category in India.
